CBMCG
Bruce Thompson
Managing Partner

Dear Bruce:

I want to take this opportunity to congratulate you and your team at CBM on your first 15 months of business. I also want to sincerely thank you for supporting us at Great Plains Manufacturing over the past year. We fully believe in your guidance and experience to help us meet major milestones from both a time and cost perspective, and CBM has not let us down.

As you know, we have tried many times to launch the Frontier configurator, but due to its complexity, we've not been successful. Thanks to CBM/TDCI, we now have a "user friendly" configurator that supports our initiative to roll out an internal and external dealer quoting solution that ultimately interfaces to our ERP system. Our other major project is to upgrade to the latest version of Frontier. We feel confident that with CBM's support, both of these goals can be achieved.

Working with you and your team has been a very good experience for us. All of you are straight forward and honest in your approach to achieve the goal in a cost effective and timely manner.

Sincerely,

Karla Jones
Information Technology Manager
